

Connecting It All for You

STREAMLINED ASSET MAINTENANCE SYSTEM THAT CUTS COSTS

Looking for Fast ROI and Hard Savings?

Now, more than ever, managers are turning over every stone to find areas for competitive advantage and cost savings, and here's a significant one. Studies show that a properly implemented maintenance system can save 17-25% of your operating budget. In larger companies, reducing maintenance expenditures by \$1 million contributes as much to profits as increasing sales by \$3 million. Dollars saved in maintenance now can avoid significant expense later.

The Azzier system provides substantial improvements in your asset maintenance management operations that allows significant ROI when fully implemented and integrated into your corporate network.

Azzier: The Premier Asset Maintenance Management System for Asset Intensive Organizations

Azzier is a powerful web-based CMMS/EAM, available as a fully hosted Software as a Service (SaaS) solution. From the cloud to your desktop or mobile device, Azzier is designed and implemented to meet your entire maintenance and asset management needs. Azzier connects it all for you - with extreme flexibility, advanced functionality and superior power to satisfy the most demanding maintenance operations.

By embracing the latest programming technologies, Azzier goes beyond traditional systems and provides complete connectivity across all major platforms and devices, allowing you to move seamlessly throughout your organization with complete access to your asset & maintenance system, anywhere, anytime and on any device.

Azzier CMMS/EAM Features:

- Web Based
- Connects from tablet, phone or desktop
- Fully Hosted SaaS
- Configurable
- Includes complete design, implementation, and support services to ensure your success.

Azzier Connects It All for You - With Extreme Flexibility, Advanced Functionality and Superior Power

Asset Management

Manage your asset deployment, life cycle planning, expenses, salvage and maintenance and repairs from an easy to use web-based environment.

Work Management

Azzier manages your day to day maintenance operations, while increasing efficiencies and reducing expenses. The result is optimization of your operations and maintenance environment.

Project Management

Manage all aspects of multiple projects simultaneously while controlling costs and maximizing labor utilization and performance.

Preventive Maintenance

Asset reliability and performance is critical to operations and cost efficiencies. Azzier's flexible scheduling and real-time data triggers ensure maximum asset potential and reliability.

Materials Management

Azzier provides an array of advanced functionality for complete materials/inventory management. Azzier creates optimized stocking levels and ideal inventory investments.

Procurement Tools

Azzier provides efficient and adaptable procurement management, offering a user-definable framework to establish and maintain optimized inventory throughout your operations.

Analytics & Reporting

Azzier provides extensive internal reporting with real-time, dashboard and historical reporting tools essential for planning, budgeting, and execution.

Labor Management

Azzier's labor management aligns your workforce with strategic objectives, asset availability and performance. Azzier improves labor management & analysis while reducing overall costs.

Service Management

Azzier's service management aligns asset management goals to overall business objectives and customer requests. Azzier creates proactive service management & customer satisfaction.

Why You Need to be "In the Cloud"

- Improved Disaster Protection
- Increased Flexibility & Scalability
- Better IT Resource Management
- Increased Security & Accountability
- Significant Cost Savings

We Set the Standard in CMMS/EAM and Customer Satisfaction

Pioneers in the CMMS space, Tero Consulting has been successfully developing and implementing the most advanced CMMS/EAM solutions for our clients since 1979. Over the decades, the tools and technology have changed significantly, but our core focus of excellent service, uncompromising support and complete client satisfaction have remained. Meeting our clients short and long-term goals has always been our top priority, which has helped us maintain outstanding longevity with our clients.
